

TrueTeenBabes Model List

Model Numbers represent the order published on TrueTeenBabes. **Example:** Model 10145 would be the 145th model published. **Age** represents the model's age on the date of her first photo shoot. Many models did multiple shoots over a few years and a girl first published at age 14 may also have photos from ages 15, 16 and 17 within her total photo set count. **Total Sets** equals the number of photo sets published to TrueTeenBabes. Sets from solo-model sites are not included in the total shown. Additional notes can be found on the final the page.

Footnotes

1 The mothers of both Alexandra and Libby listed age 13 on the original paperwork. Later we discovered that their mothers had intentionally written the incorrect age on paperwork and the girls appeared at age 12 years and 6 months in their first photo shoots.

2 Pam was originally named "Justice" when first published on TrueTeenBabes.

3 Danielle and Loredana ages are correct for the time of photo production. In their cases, and some others, there was a long delay between date of first photo shoot and date of first photo publication while the website was offline to manage a legal matter. Some models, such as Danielle, appeared on TrueTeenBabes listed as 17 (age at first photo shoot) just weeks before also appearing on TrueBabes topless in photos taken at age 18, almost 19.

4 Becky was originally named "Candy" when first published on TrueTeenBabes.

5 Jennifer was originally named "Tru" when first published on TrueTeenBabes.

6 Brittany Marie first modeled for another company using the stagename "Marie" and when first published on TrueTeenBabes was called Marie. While not on our site TrueBabes, Brittany manages and looks great on her own nude website at www.Brittany-Marie.com as of December 2017.

7 Diana was born in Mexico to a Mexican mother and America father. Due to a divorce and child custody agreement Diana spent just a few months a year in the USA and we never managed to work with her again.

8 Brittany Lopes was never published on the TrueTeenBabes site. She was introduced to us by Jaclynn Marie just days before the site was schedule to close. We did a normal photo shoot and placed the images on the non-nude version of Jaclynn Marie's site as a guest model. Her images originally began with 35002, but have now been renamed as if she was on TrueTeenBabes as the 199th model and start with 10199.

9 Stephanie, also known as "Stephi", was never published on the TrueTeenBabes site. These images, taken in Miami when Stephanie was age 16, had originally been produced for her to appear on TrueTeenBabes. Around the same time she was working with a friend of ours to start her own website known as Stephi-Model.com (now closed). To help get her website rolling, and not confuse her fans, we never published these photo sets on TrueTeenBabes. If published at the time she would have been the 41st TrueTeenBabes model and all others would have been pushed back one spot, but we have now posted her as if she was on TrueTeenBabes as the 200th model and her image files start with 10200.

10 During the first 9 years of TrueTeenBabes archiving and back-up of original photos (unedited) and the sets posted to the website was done on compact disks (CDs). In 2018 as we re-posted missing models on the TrueTeenBabes archive it was discovered that the CDs containing images of some models had become unreadable due to humidity, cracking or scratches. If you happen to have the original ZIP files of those models please contact us at Staff@TrueTeenbabes.com

11 Kailin (10152) passed away from accidental drowning in September 2019. Her photo sets have been removed from the TrueTeenBabes archive store.

Additional Notes

Stagenames: When we started shooting teen models for TrueTeenBabes in 2001 we allowed them, or their mother, to select the stagename that would be published on the website. Eventually we changed that policy and started selecting the names ourselves for two reasons:

(1) Some of the girls or mothers would select dumb, non-teen or stripper sounding stagenames and it would have made the site look silly to have a teen named "Candy Buns" or "Veevee Luvmebootee" on the site.

(2) We wanted to produce more behind the scenes style videos. To do so we found ourselves recording the girl being called by her real first name by the photographer, make-up girl or other helpers, but later appearing on the site under a different first name. It seemed silly.

Eventually the policy became that we would use the true and correct first name, or variation thereof, and middle name or a substitute last name. Christina might become Tina, Rebecca might become Becky, but in general the first names shown on this list are correct.

A few of the stagenames published above are done by memory or slightly altered now. A few girls we didn't select a second name (middle or last) when originally published and are relying on memory now. Others we are updating or altering now. Example: "Melanie Bluchard" was originally published as simply "Melanie", but for this document we have taken the full stagename from her paperwork to list her as "Melanie Bluchard".

Photo Quality: In the first couple of years we tried to put a new girl on the website every week. Eventually it became obvious that to do so the model quality and photo quality wasn't as high as it could have been. Later we tried one every two weeks, and still later just one a month. In most cases that improved production quality until the last few months of the website when it became hard to locate enough teen models of high quality.

Total Sets: The numbers shown here does not include sets done on solo-model websites that some models also posed for. The few girls with just 1 or 2 sets participated in a promotional "Test Shoot" day with many other girls. For various reasons they never made it back in front of the cameras for full shoots or other events.

Rewind or Flashback: Several of the models came back years later, after hitting ages 18-22, and participated in new photoshoots just for fun. This would include Jennifer Mondial, Ashley Rose, Tina Lynn and others. This means that TrueTeenBabes in those few sections would have models that are just above the teen age range.

TrueBabes: In 2004, after several of the original models had become age 18-19, we started a lingerie / topless / nude site at TrueBabes.com and 27 of these models posed for that site after their 18th birthday. TrueBabes stopped publishing new models in 2015 but remains open as an archive.

Mistakes and Questions: If you find a mistake in this listing, or have a question not answered above, please feel free to email us at Staff@TrueTeenBabes.com and we'll reply as soon as possible.
